

**PATENT APPLICATION
DOCKET NO. 10012542-1**

**IN THE
UNITED STATES PATENT AND TRADEMARK OFFICE**

INVENTOR(S): Robert Sesek

SERIAL NO.: 10/037,744

GROUP ART UNIT: 7359

FILED: November 9, 2001

EXAMINER: GREENE, DANIEL LAWSON

**SUBJECT: COMPENSATION FOR ELECTRONIC
DOCUMENT RETRIEVAL AND PRODUCTION**

**U.S. PATENT AND TRADEMARK OFFICE
COMMISSIONER OF PATENTS
ALEXANDRIA, VA 22313**

**SUPPLEMENT PETITION TO WITHDRAW HOLDING OF ABANDONMENT
BASED ON FAILURE TO RECEIVE OFFICE ACTION
37 CFR 1.181(a)**

In a petition mailed January 10, 2008, the requested that the that the abandonment of application serial number 10/037,744 be withdrawn pursuant to MPEP 711.03(c)(I)(A). The notice of abandonment indicated a failure to respond to a restriction requirement mailed April 6, 2007. The patent office has indicated in a telephone conversation on June 2, 2008, that the petition was defective because the it did not contain a copy of the practitioner's docketing log for the time in question and a statement that the practitioner did not receive the office action. The following is a supplement to the petition of January 10 submitted to remedy those defects.

STATEMENT OF NON-RECEIPT: As indicated in the Declaration filed November 9, 2001, the correspondence address of the assignee of the application was listed as

HEWLETT-PACKARD COMPANY
Intellectual Property Administration
P.O. Box 272400
Fort Collins, CO 80527-2400.

Neither the practitioner nor the Hewlett-Packard Company received the restriction requirement mailed April 6, 2007. The practitioner searched the electronic and physical file for the application in question. The Restriction requirement was not found.

EVIDENCE OF NON-RECEIPT: To establish a showing of non-receipt of an Office action, one must provide a statement describing the system used for recording an Office action received at the correspondence address of record. The statement should establish that the docketing system is sufficiently reliable. MPEP 711.03(c)(I)(A). The Hewlett-Packard company uses a docketing system that is sufficiently reliable. The system allows for reports filtered by application number. One such report provides a mail log for a selected application. The mail log for the present application reveals that the restriction requirement mailed April 6, 2007 was not received at the correspondence address of record. That log however does indicate that the notice of abandonment was received. A copy of that mail log is provided as Appendix A.

The practitioner utilizes an electronic calendaring system that is reliable. A copy of the master docket for the practitioner's firm covering the three months following the issuance of the Restriction requirement is attached as Appendix B. Note that the Assignee and the Practitioner utilize the same docket number -- 10012542-1. That master docket does not show that the Restriction requirement was received or that a response was calendared for docket number 10012542-1.

Furthermore, the image file wrapper at the Patent Office reveals that the mailing of the restriction requirement was returned as undeliverable on April 9, 2007. A copy of the file wrapper listing is attached as Appendix C.

CONCLUSION: The evidence provided establishes:

1. A search of the Hewlett-Packard Companies docketing system and the practitioner's docketing system reveals that the restriction requirement mailed April 6, 2007 was not received at the correspondence address of record.
2. The file wrapper maintained at the Patent Office reveals that the restriction requirement was returned as non-deliverable.
3. Other correspondence, including the notice of abandonment, was receive at the correspondence address of record .

This evidence leads one to a conclusion that either the Patent Office or the Postal Service mishandled the mailing of the restriction requirement. Accordingly, the Applicants request the withdrawal of the abandonment for the present application.

Respectfully submitted,
Robert Sesek
